# D&S DOWNHAM EQUIPMENT

## A Pillar of Community Spirit

Located in the heart of Perth South, D&S Downham is one of North America's largest Karcher divisions and Kubota dealerships. This third-generation, family-owned business was established by Cecile Downham, whose vision and dedication transformed a unique opportunity into a thriving enterprise. Over the past 60 years, D&S Downham has become a cornerstone of the Perth County community, known for its exceptional service and commitment to quality.

Today, the business is led by Mark Downham, Cecile's grandson, who has successfully taken over from his father, Bob Downham. Bob's decades of leadership helped shape the company into the success it is today, and his ongoing involvement continues to blend experience with Mark's innovative approach. Mark's background in business and agriculture has equipped him well to drive the family legacy forward with passion and dedication.

In June 2023, they expanded their facilities, adding space for increased inventory and new offices to support their growing team. The company's commitment to their customers, staff and community earned them the prestigious 2024 Skilled Trades Award, and the Business of the Year Award from the Stratford Chamber of Commerce.

Mark Downham is also deeply engaged in his hometown, when not at the dealership, he can usually be found coaching hockey and baseball, and serving on the board for the Stratford Warriors hockey team. The success of D&S Downham is a testament to the enduring values of family and community. D&S Downham remains a pillar of Perth County, embodying both excellence and local pride.
