VICTORIAN INN & SPA

Two Sisters, One Vision

Shelby and Brianne, two sisters with distinct talents, had always dreamed of working together. When the opportunity arose to purchase a Victorian home in Listowel, they knew it was the perfect canvas to combine their passions. With Shelby's eye for design and Brianne's expertise in wellness, they redecorated the old house, ensuring that its charm and integrity remained intact. The result is the Victorian Inn & Spa, a beautiful blend of local history and modern comforts, just a stone's throw from downtown Listowel.

One of their signature offerings is a private high tea event, a highlight of the Perth County Discover More Adventures program. Visitors can gather with friends to enjoy an elegant afternoon of tea, sandwiches, scones, and sweets in a setting that echoes the grace of a bygone era. The sisters take pride in offering an experience that is both luxurious and intimate, allowing guests to step back in time while creating new memories.

In addition to high tea, the Victorian Inn & Spa features a charming gift shop filled with handcrafted items, including floral arrangements made by Shelby herself.

For those looking to extend their stay, the Victorian Inn & Spa offers a cozy Airbnb experience. Groups can book a night in one of the meticulously decorated rooms, each designed to provide comfort while preserving the historical essence of the home. Whether it's for a spa day, high tea, or an overnight stay, Shelby and Brianne have created a sanctuary where history, relaxation, and creativity come together.
