FARMHOUSE**

THE PERTH FARMHOUSE

Grapes, Goats and Good Times

In 2018, city escapees Steve and Casey Howanyk traded urban hustle for the quiet charm of country life. What began as a modest venture selling eggs soon blossomed into something extraordinary. The Howanyks transformed their old barn—originally from 1868—into a modern, trendy space, blending historic charm with contemporary elegance.

By 2022, they introduced their signature Goat Social experience as part of the Perth County Discover More Adventures Program. Visitors were invited to frolic with baby goats and enjoy a scenic picnic with locally sourced snacks. The event quickly gained popularity, attracting guests from near and far

But, the Howanyks weren't done dreaming. With a blend of determination and passion, they set out to transform their land into Perth County's first-ever winery. Casey and Steve rolled up their sleeves and planted a five-acre vineyard, growing cold-climate grapes like Vidal and Marquette.

Today, The Perth Farmhouse offers a one-of-a-kind experience that blends rustic charm with modern elegance. Visitors can tour the barn, cuddle with goats, and sip on carefully crafted wines and ciders, all while soaking in the serene beauty of their property. The Howanyks' journey from first-generation farmers to trailblazing vintners is a testament to their passion and perseverance.

As they raise a glass in their vineyard oasis, Steve and Casey aren't just celebrating their wine—they're toasting to turning dreams into reality, one pour at a time.
