GOETTLERS OF DUBLIN FINE FURNITURE

A Family Touch

Stepping into Goettlers of Dublin Fine Furniture is like entering a realm where history and elegance merge seamlessly. Founded in 1952 by George G. Goettler, this cherished establishment began as a modest Red and White grocery store in Dublin, Ontario. It was the vision and dedication of George and his wife, Ally, that transformed it into a furniture destination.

In 1977, George and Ally pivoted to furniture and mattresses, revitalizing their store. Their son, Stephen, joined in 1982, bringing new energy and vision, and under their combined efforts, Goettlers of Dublin Fine Furniture evolved into Ontario's Furniture Village that became a hub for exceptional design and craftsmanship.

In 2010, Stephen's wife, Vivi Jensen Goettler, joined the business and modernized the Company with infrastructure updates, new technology and initiated social media platforms. In 2012 Chesterfield Warehouse Limited, a new brand, was launched. In 2020, the next generation, Vivi's daughter Kirsten Pusateri, was appointed Vice President, taking on buying responsibilities for both Goettlers of Dublin Fine Furniture and Chesterfield Warehouse Limited. The Goettler team travels internationally to industry trade shows to discover new trends and vibrant products.

Today, Goettlers of Dublin Fine Furniture boasts a massive 30,000 square foot showroom. The store's commitment to design excellence is evident in its curated selection and modern flair. With a warm atmosphere, lively music, and exceptional service, every visit to Goettlers of Dublin Fine Furniture is an enriching experience.
