PREFACE

In presenting the Twenty-First Edition of the STRATFORD DIRECTORY, we trust it will be met with the same cordial approval as our former editions. Every means has been taken to render the work up-to-date and as accurate as possible.

The number of names in the Alphabetical Section is 7924 which, multiplied by 2½, the usual multiple used by directory publishers, gives a population of 19,810.

Thanking our patrons for their support,

HENRY VERNON & SON,
Head Office, 37 King William St.,

September, 1924.

Hamilton, Ontario.

Free to green keepers and others who desire the latest information on the building of a new Club Green or renovating an old lawn.

We quote Special Prices to Clubs, Institutions, Parks and others who require seed in large quantities.

LAWNS AND GREEN

It is most important that the lawn should be sown with a mixture of grass seeds especially adapted for the purpose required. A mixture suitable for a Park or Golf Course would be quite unfit for a private lawn, Bowling or Putting green. All the finest grasses that are most suitable for the formation of a lawn when grown for seed, produce very much less weight of seed per acre than do the coarser growing varieties, consequently the cheaper the mixture the coarser the turf. We maintain that the finest dwarf growing grasses are the most economical even for large areas, as the turf formed by the dwarf compact habit of the finest grasses requires to be mown only about half as many times as a turf formed of coarser growing varieties.

The Sign Over Your Door

It is a good thing, isn't it? You would not think of doing business without it.

But it is only seen by those who pass your way.

The **CITY DIRECTORY** is where many people look when they want to find you. Make it easy for them to find you by putting in the Directory such information as a buyer wants to know. Index your business under all classifications where a customer might look for you.
