# MILLBANK CHEESE & BUTTER

## Crafting Quality Since 1908

In the village of Millbank, Ontario, tradition and craftsmanship come together in the time-honoured art of cheesemaking. Millbank Cheese & Butter has been a cornerstone of the community for over a century, producing quality cheese and dairy products that bring the taste of rural Ontario to kitchens near and far.

Founded in 1908, Millbank Cheese began when local farmers sought a way to make use of surplus milk from their dairy operations. In 1972, Millbank Cheese & Butter made history as the first Canadian cheese factory to install an automated cheese-maker, imported from Europe.

Millbank is best known for its exceptional cheddar, crafted in a range of ages, including cheddars naturally aged for up to 20 years. Their fresh cheese curds are made every Wednesday, and their line also includes mozzarella, traditional butter and smoked cheeses hand-smoked on-site for hours, using only natural hardwood. As the only Certified Organic cheese processor in Perth County—and one of just a handful across Ontario—Millbank continues to set itself apart with quality and care.

Beyond the products, Millbank Cheese & Butter has always been deeply connected to Perth County's farming community. By working hand-in-hand with local dairy producers, they help sustain family farms and preserve the rural way of life that has defined the area for generations. Their story is woven into the fabric of the county, drawing visitors who come for the flavour but leave with an appreciation for its heritage.

For Millbank Cheese & Butter, quality isn't just a goal, it's a promise kept for more than 100 years. With every bite, you're tasting a tradition that continues to thrive in the heart of Perth County.
