BENSHAW CANADA CONTROLS INC.

Powering Precision

Benshaw Canada Controls Inc., founded in 1983, stands as a beacon of innovation in the realm of motor control technologies. Specializing in advanced motor control solutions, Benshaw has earned its reputation as a leader in providing robust products for critical industrial applications.

With a wide range of offerings that includes low and medium voltage controls, drives, and protection products, Benshaw ensures reliability even in the harshest environments.

Benshaw's global presence, with stocked warehouses in the USA and Canada, enables swift shipment worldwide, reinforcing their capability to support heavy-duty industrial needs across various sectors.

The Listowel facility is pivotal to Benshaw's Canadian operations, housing administrative, engineering, and sales functions alongside a dedicated manufacturing and testing space for low and medium voltage controls. This facility underscores Benshaw's commitment to serving the Canadian market with tailored solutions and unparalleled support.

What truly sets Benshaw apart is their ability to blend global expertise with local impact. By providing employment opportunities and supporting the community, Benshaw demonstrates how businesses of all sizes can find a thriving home and make a significant impact. The company's presence in this supportive region highlights how businesses can flourish with the right blend of global vision and local engagement.
