RIVERVALLEY GOLF & SNOW TUBE

Rural Roots

For 28 years, River Valley Golf Course & Winter Tube Slide has been a cherished part of Perth County, offering year-round entertainment. However, its story began in an unexpected way. NHL hockey players Walter Tkaczuk and Danny Seguin, founded their own summer hockey school in St. Marys.

For over 15 years, the school attracted players from across Canada and the United States, making a lasting impact on many young athletes. In 1985, Walter and Danny decided to retire from the hockey school. They shifted their focus to a new venture aimed at enriching their local community. Embracing their entrepreneurial spirit, they set out to create a golf course and transformed the land into a picturesque 18-hole course.

Since opening in 1995, River Valley Golf Course has become a cherished destination for golf enthusiasts. This success is a testament to the Tkaczuk family's unwavering dedication. Today, the entire family is deeply involved in the business, with Sarah, David and Michael managing daily operations, while Walter, Valerie, and Danny continue to contribute their expertise. Their collective hard work recently resulted in the addition of a newly renovated indoor and outdoor event space, enhancing their ability to host community gatherings and celebrate local spirit.

River Valley Golf Course & Winter Tube Slide is more than a golf course; it is a testament to vision and dedication. The transition from a hockey school to a thriving golf course highlights the transformative power of local entrepreneurship and community commitment, showcasing the opportunities Perth County has to offer.
