COUNTRY ROOTS FRESH MARKET

Seasonal Eats, Handcrafted Treats

Country Roots Fresh Market is a vibrant farm store stocked with fresh produce, homemade baked goods, local meats and cheeses, seasonal flowers, pantry staples, and even freshly prepared lunches, all infused with the warm, welcoming spirit of rural Perth South.

Since opening its doors in June 2022, Country Roots has quickly established itself as a must-stop farm gate destination. Whether you're seeking inseason fruit and veggies, handcrafted treats or artisanal cheeses, the market focuses on supporting nearby growers and producers. More than just a market, it's a one-stop shop with a little something for everyone.

On Instagram and Facebook, they regularly highlight fresh arrivals and tell the stories of the local makers behind their products, helping customers feel more connected to the people growing and crafting their food.

Regular events and open houses add to the charm, especially the much anticipated Christmas Open House, which brings together locals and visitors in celebration of the season.

For anyone exploring rural Perth South, Country Roots Fresh Market is a one-stop shop where farm-fresh flavour meets small-town hospitality. You'll leave with great food, friendly conversation, and a renewed connection to your local food community.
