

Noice Family

Index

Section 1: Noice Family Tree

- Names and identification number of each descendant of Henry Noice [52] and Charlotte *Austin* Noice [53]. Each new generation is indented. It should be noted that the tree is not complete. It contains only those members for which there is a photo or other documentation.

Note on Organization of the Family Tree:

1. Each person has been designated a number which correlates to their position on the family tree. The first two identified members of the family are each given a number. Each consecutive child is then given a letter to the end of that number. For example, the first child is 1-2a, the second child is 1-2b, and so on. The numbering system continues with each new generation being given an additional letter signifying their position within the tree.
2. Each spouse of a direct descendant is designated with Sp. for Spouse. For example, if they are married to the third child in the family tree, they would be numbered as, "1-2c.Sp." If they have more than more spouse, it will be denoted by a number after the Sp. "1-2c.Sp.2."

If an individual in this family tree is connected to another family associated with the project, that person's identification number will change in their second tree.

Section 2: Family photographs and archival documents

- Includes photographs and source documents related to each family member.

Dear Sir

As one who signed the application and also testimonial for C. Noice, it gives me pleasure to say that although he only worked under me from July 1st until Oct-16th, I have known him since childhood and have much pleasure in recommending him as one who will make a efficient and capable engineer. While under me he had charge of a engine 180 H.P. and one 150 H.P. and acted as sec. engineer for the town Elec. L. plant, the value of which was over \$100,000 and we found him very careful and very reliable, not only during the whole term he was with me but during his whole life. He left the position under me much to my regret. This is as we found him as far as we know
