

**BLACK CREEK
FLOWER FARM**

BLACK CREEK FLOWER FARM

Petals of Passion

In the 1950s, just outside Sebringville, Black Creek Flower Farm began its journey as a humble gladiolus grower. What started as a small operation soon blossomed into something much more. Today, Laura and Adam, the third generation to run the farm, continue the legacy of their grandparents, cultivating not just flowers but a passion that has flourished across decades.

Word of Black Creek Flower Farm's stunning flowers spread quickly. It wasn't long before they could be found in homes, events, and markets across Perth County and beyond. But the farm is more than just a place to buy flowers; it's an experience. Visitors are drawn to the farm not just for the flowers but for the chance to wander through fields of vibrant blooms, picking their own flowers in the U-Pick garden, or attending one of the many workshops hosted on-site. The farm's retail outlet and U-Pick garden are open from July to Thanksgiving, offering ready-made bouquets crafted from their seasonal flower.

In 2023, Black Creek Flower Farm joined Perth County's Discover More Adventures program, inviting others to explore the farm and see its beauty firsthand. By opening their fields to the public, Laura and Adam have allowed others to share in the joy and wonder that has defined their lives for generations.

Their journey from a wholesale gladiolus grower to a thriving flower farm is more than just a story of business growth; it's a reflection of their commitment to creating something meaningful for their community. Black Creek Flower Farm is a place where tradition and passion intertwine, offering a space where every flower tells a story of beauty, craftsmanship, and shared joy.
