#PeopleofPerthCounty: Homegrown Journeys

For The Love of Small Towns

When we first connected with Virginia, she had already laid the foundation for Acre75.ca - a business proudly based in Milverton, right in the heart of Perth County and the Township of Perth East. "Acre75 has grown and evolved over the past six years, but one thing has remained the same - we're still proudly based in Milverton," Virginia shares.

Shortly after her first feature, Virginia launched Acre75 Gathered - a seasonal subscription box designed to help people discover products made in small town Canada, while also creating steady, recurring revenue for her small business. "What began as a side offering quickly became the heartbeat of Acre75. Today, the subscription box is the business! Every season, we ship hundreds of boxes across Canada and the USA, giving subscribers something to look forward to while supporting dozens of small town makers. We're currently shipping our 26th season of Acre75 Gathered Boxes!"

To further support small businesses, Acre75 Gathered expanded to include a Corporate Gifting Service, offering curated gift boxes that help small and mid-sized businesses recognize their employees and clients with thoughtful gifts made right here in small town Canada.

Virginia says, "I'm truly living my small town dream and proud to be a part of Perth County!" Firmly established in Perth East, Acre75 Gathered continues to shine a spotlight on the talent and creativity found in communities across Canada - one carefully curated box at a time.
