New Temporary All-Way Stop in Fullarton

PERTH COUNTY, ON – A temporary all-way stop had been installed at the intersection of Perth Road 163 and Perth Line 20 in Fullarton.

The temporary traffic control measure is required to accommodate increased traffic volumes in the area resulting from ongoing construction of the new roundabout at Highway 23 and Perth Line 20 in Russeldale. The roundabout project is being led by the Ministry of Transportation (MTO).

Drivers are reminded to obey all posted signage and detour routes, reduce speed, and use extra caution while travelling through the area during the construction period. The MTO anticipates completion of the Russeldale roundabout project in Fall 2026.
